APLIKASI ADMIN

The screenshot shows the E-Kantin Admin Dashboard. The top navigation bar is orange with the text "E-Kantin Esa Unggul" and a user profile for "Administrator" (Online). The left sidebar contains a "NAVIGATION MENU" with links to Home, Data, Orders, Report, Profile, and Logout. The main content area is titled "Dashboard" and features four colored cards: "2 PELANGGAN" (green), "2 KATEGORI" (red), "16 MENU" (orange), and "0 ORDERS" (blue). Below these cards is a section titled "DATA ORDERS YANG BELUM DI LAYANI" with a search bar and a table. The table has columns: No, ID Orders, Meja, Pelanggan, Waktu Orders, Total, Status, and Opsi. It shows "No data available in table" and "Showing 0 to 0 of 0 entries". The bottom of the dashboard shows a weather widget for "24°C Berawan" and a taskbar with various application icons.

DATABASE

The screenshot shows the phpMyAdmin interface for the "ekantin" database. The left sidebar lists the database structure, including tables like admin, kategori, meja, menu, orders, orders_detail, pelanggan, information_schema, mysql, performance_schema, phpmyadmin, and test. The main area displays the "Struktur" (Structure) tab for the "ekantin" database. It shows a list of tables with columns: Tabel, Tindakan, Baris, Jenis, Penyortiran, Ukuran, and Beban. The tables listed are: admin, kategori, meja, menu, orders, orders_detail, and pelanggan. Below the table list, there is a "Buat tabel" (Create table) section with fields for "Nama:" and "Jumlah kolom:" (set to 4).
